

SAYS COOLIDGE BEST PROMISE OF PROSPERITY

Hughes Devotes Large Part of Chicago Speech to Independent's Attack Upon Platform—Business Growth Essential

NO SECRET TREATIES

Senate Must Ratify Each, He Declares—G. O. P. Policy One of Independence, Not Isolation, He Adds

(By the Associated Press.)
Chicago, Oct. 28.—Secretary of State Charles E. Hughes, in a campaign speech tonight in behalf of the Republican national ticket, told a large audience that "the best assurance of prosperity in this country is to secure on November 4 the election of Calvin Coolidge."
Secretary Hughes, devoting a large part of his address to a consideration of proposals of the LaFollette-Whelan independent platform, placed emphasis upon "the most dangerous aim of the independent party—its attempt to destroy our system of government by its assault upon the jurisdiction of the supreme court in the interpretation of the constitution."
"The question then," he said, "is whether we desire to maintain our system of government, or whether we wish to have any constitutional limitations."
Secretary Hughes lauded the accomplishments of the present administration in fiscal affairs, the realm of foreign relationships and for its "determined attack upon the cost of government."
"Most important of all undertakings of the Republican administration," he said, "has been its determined attack upon the cost of government."
Touching upon economical proposals contained in the campaign declarations of the independent candidates, Secretary Hughes said:
"You can not have progress without the security and expansion of enterprise."
Answering LaFollette and Davis.
"The extreme radicals have never been able to understand why they could not have the golden age after the goose was killed. The question was to distribute eggs that are so more."
Both Senator LaFollette and John W. Davis, the Democratic presidential nominees, were answered in Secretary Hughes' discussion of foreign affairs.
"Senator LaFollette says that our diplomacy is secret and imperialistic. It is neither. We have no secret diplomacy in this country in the ordinary sense of the term, as treaties must be submitted to the senate."
"The department of state is always ready to give information to any senator who will take the trouble to come to the department to get it."
"It is charged that this government is engaged in negotiating concessions for our citizens. This is untrue. We maintain the principle of the open door, or equality of commerce, and opportunity to the end that our citizens shall not suffer unjust discriminations but shall have the opportunity to which they are entitled. With this opportunity they make their own contracts on their own terms."
"The principle of the open door is an historic American principle. It is not to benefit any particular interests, whether in oil or anything else. The principle of the open door is essential to American interests, and we propose to maintain it, as we have maintained it, by honorable and impartial application."
"The form of American policy has never pledged for the reduction of foreign loans or investments."
Taking counteraction of LaFollette's attacks upon Republican foreign policy, Secretary Hughes asked what the Democratic policy was.
"It is constantly apparent that the center attack by our opponents is to force a policy with respect to foreign relations in that this government has not joined the League of Nations. This is the heart and soul of our offending."
G. O. P. Policy Independent.
"What does the Democratic party propose?"
"When the question arose at the Democratic convention, the Democratic party ran to cover."
Alluding to the Democratic platform declaration in favor of a national referendum on American entry into the League of Nations, and to the independent attack upon that plank in the national convention by Senator Baker, former Democratic secretary of war, Secretary Hughes cited Mr. Baker's assertion that the proposed referendum would be "a fatal financial and unconstitutional" and asked:
"Has Mr. Davis tried to prove it was anything else?"
"Our policy," he continued, "is that of cooperation without injurious commitments. It is a policy of independence, not of isolation. We propose to cooperate to protect the interests of our people."
"We propose at the same time that this country shall not be embroiled in the conflicts of European imperialism. Our first influence promoters by our detachment from such conflicts."
"The best assurance of prosperity in this country is to secure on November 4 the election of Calvin Coolidge," Secretary Hughes declared.

FINNEY HAD NO PART IN LEASES

Says Fall, Unlike Usual Procedure, Did Not Consult Him Before Signing Contracts

Los Angeles, Oct. 28.—That Albert B. Fall, as secretary of the interior, acted alone and without the customary advice of Edward C. Finney, first assistant secretary of the interior department, in the making of the Teapot Dome-Sinclair naval oil lease and the Elk Hills-Pan-American naval oil lease, which the government charged were issued in a conspiracy to defraud, was testified to today by Finney. Testimony of the trial of the government suit to cancel the \$100,000,000 leases and contracts to the Edward L. Doherty concern in negotiations which Doherty is accused by the government of giving \$100,000 to Fall, today led to the work in the interior department concerning the leases.
Owen J. Roberts, government counsel, questioned Finney in an effort to show that Fall acted unusually, independently, and alone in negotiations of these leases. He asked Finney whether or not he knew generally of and participated in preparation of contracts previous to December 11, 1922, when the Pan-American supplemental contract on Elk Hills and Pearl Harbor development work was made.
"The only lease I know of which I did not participate in was the Sinclair lease in Wyoming," Finney testified, referring to the Teapot Dome lease which is subject to another government suit for cancellation.

BODY OF WOMAN FOUND IN MINE

Apparently Had Been Slain at Home and Carried to Hiding Place—Husband Questioned

Oxford, N. J., Oct. 28.—State troopers probing the death of Mrs. Grace Thomas, whose scantily clad body early today was found in the mouth of the old Spraley iron mine, tonight expressed the belief that she was slain in her home at Glen Gardner and her body carried here.
The troopers said it had been carefully dropped in the open mine hole, apparently by a person anxious to make a hasty disappearance. The body was partly hidden from view by pillow cases and burlap bags containing blood stained bed coverings and the woman's clothes.
Frank Thomas, husband of the woman, was in the Belvidere jail as a material witness. He identified the body as that of his wife. He told the troopers she had been missing since Sunday and that he knew nothing of her whereabouts. An autopsy revealed that Mrs. Thomas had been shot twice: once through the head and once through the breast.

OUTCOME OF BRITISH POLL TOO DIFFICULT TO PROPHESY

(By the Associated Press.)
London, Oct. 28.—The people of Great Britain will provide themselves tomorrow with their third parliament within two years. What kind of a parliament it will be after the votes of the nation are counted, no prominent politician or political observer has been audacious enough to predict. The Labor government would go the way of all governments seems, however, to be the opinion held almost everywhere, outside of the LaFollette still appear confident that their party will be given a mandate to remain in office.
Whether the Conservatives can regain the loss of one of their commons with the support of all other parties, and whether they will accept office, is a question which has not yet been decided. The outcome of the election is too difficult to prophesy.

LOWERED FLAGS TO MARK BURIAL OF GEN. HALDEMAN

Lowered and military mourning are to mark the burial in the Hill cemetery here tomorrow of General W. B. Halderman, 25, commander-in-chief of the United Confederate Veterans. General Halderman died suddenly from a heart attack while watching the races at Churchill Downs yesterday.
Funeral services for the distinguished soldier-captain will be held at 2 o'clock in the afternoon.
Former comrades in gray and members of the 138th field artillery, which he commanded when it was known as the First Kentucky regiment, will form the military escort. Full military honors will be rendered at the cemetery, where General Halderman will be buried in his uniform as commander of the Confederate veterans.

NEW YORKER FIRST TO VOTE FOR REPUBLICAN NOMINEES

St. Joseph, Mo., Oct. 28.—The first vote in St. Joseph for the election of November 4, was cast last night when W. W. Benedict of Ironport, N. Y., made his ballot to be sent to New York. Benedict, who is a traveling salesman, voted for Coolidge presidential electors, and for Theodore Roosevelt, Jr., for governor of New York.

EQUAL CHANCE FOR ALL, SAYS JOHN W. DAVIS

Future of Colored Man, He Tells Harlem Negroes, "Lies in His Political Independence"—No Limitation to Color

GREATLY APPLAUDED

Auditors Particularly Noisy When Speaker Refers to Evoking 13th Amendment in Alabama Contract Labor Law

New York, Oct. 28.—Equality of opportunity for all, regardless of race or color, was advocated tonight by John W. Davis, Democratic candidate for President, in an address delivered in Harlem before a capacity crowd of negroes gathered in Liberty hall.
The future of the colored man in the United States, Mr. Davis said, lay in his political independence, and he cautioned that political equality would not be achieved by him until "you shake off anything that remotely resembles political slavery."
The candidate declared for "equality of opportunity for every man who comes to live in this country."
This declaration was received with cheers which swelled in volume when the candidate added that he also believed in "equality of right" for all men in the sense that they should stand before the law on the same basis.
Special Privileges to None.
"The underlying principle of democracy, the great principle that breathes through the Democratic party," Mr. Davis said, "is the principle of equal and exact rights for all men and special privileges to none."
"And," the candidate added, "there is no limitation in that motto of race or color and I for one will never write such a limitation there."
He was required several times to wait until he might be heard above the clapping of hands and shouts from the throng before he was able to continue his remarks.
Particularly was this so when Mr. Davis said he had at the beginning of the campaign promised his friends that he proposed "to leave no uncertainty as to my determination to enforce the constitution of the United States and all the laws made in pursuance thereof."
The 13th, 14th, and 15th amendments. "It was the 13th amendment that forbids involuntary servitude that I evoked when I struck down the Alabama contract labor law," he said.

DELAY IN LEAGUE COUNCIL MEETING PLEASES EXPERTS

(By the Associated Press.)
Brussels, Oct. 28.—The disarmament experts of the League of Nations tonight expressed pleasure over the decision of the council of the league today to postpone until the session of December 8, its first official discussion of the agenda for next year's conference on reduction in armaments.
The experts feel that the postponement will afford additional and much required time for the preparation of the preliminary technical information necessary. It was remarked also that by December, when the council meets in Rome, instead of at Geneva on November 17, the elections in the United States, Great Britain, and Germany all will have been concluded, and the league will be in a better position to judge just what support it can count upon for an arms conference, especially from the United States.

GUilty OF CONSPIRACY

A grand jury at Alexandria, Del., today returned a verdict finding guilty of conspiracy to defraud the United States a group of men connected with the transportation of immigrants from Germany to the United States. The men were sentenced to a year and a day in the penitentiary on each count. Frank C. Davis, railroad engineer, was found guilty of conspiracy to defraud the United States and was sentenced to a year and a day in the penitentiary. The men were charged with conspiracy to defraud the United States by the transportation of immigrants from Germany to the United States.

BODY LIES IN STATE

(By the Associated Press.)
Lee, Mo., Oct. 28.—Surrounded by a guard of United States soldiers, sailors, and marines, the body of Henry C. Wallace, secretary of agriculture, exposed tonight beneath the dome of Iowa's state capitol building.
Tonight he belongs to the state, and it is honoring him as no other son has been honored. Tomorrow, from his home on John Lynde road, he will be taken to Woodland cemetery, where the final rites will be said, surrounded only by his family and former friends.

S. & W. LEASE EFFORTS ENDED

Philadelphia, Oct. 28.—After efforts had been made for the better part of the last year, announcement was simultaneously made today by the Norfolk & Western railway and the Pennsylvania railroad that negotiations looking for a long term lease of the Norfolk & Western property by the Pennsylvania had been terminated because a financial basis could not be agreed upon.

REED ON STUMP FOR DEMOCRATS

Missouri Biting Comments on "Calvin Coolidge, Cool as Cucumber" Slogan

(By the Associated Press.)
Kansas City, Mo., Oct. 28.—Senator James A. Reed, Missouri, who for several months has been out of the political arena because of protracted illness, tonight took the platform at Convention hall here in his first public address since prior to the Democratic national convention. He pledged his allegiance to the national and state Democratic tickets.
Still showing the effects of his illness, but with much of his old-time characteristic fighting spirit, the senator fired political broadsides at both LaFollette and President Coolidge and denounced the Republican administration for what he termed its "reactionary policies."
Senator Reed said he had no desire to say harsh things about President Coolidge, whose committee "has adopted the campaign slogan—'Calvin Coolidge, cool as a cucumber.' Nevertheless, I am content that his friends, if they please, compare him with that criminal of the garden, which being composed entirely of seeds and water, and completely devoid of all sustenance, produces only starvation in animals, and colic in humans."

COOLIDGE WILL NOT ANSWER CRITICISM

Says He Has Revealed Stand on Major Questions—Confident of Victory

Washington, Oct. 28.—Confident of the outcome of the election, President Coolidge has no further plans for active participation in the campaign, he told friends today. He had defined his attitude on all important phases of government administration both in his speech of acceptance of the nomination and the address he delivered here last week before the eastern division of the chamber of commerce of the United States and did not consider specific replies necessary to any charges which may be made against either himself or the various departments of the government in the last week of the campaign.
Meanwhile, Mr. Coolidge made it known he was making all his plans in accordance with indications to him that the Republican national ticket would be elected. Information reaching him today that the Democratic ticket might have been canceled, he said, was of no other expectation, he told visitors.

TEST CASE TO END PUBLICITY PUZZLE

Stone Intends to Have Court Rule on Right of Newspapers to Print Income Tax Data

Washington, Oct. 28.—Without determining finally the legality of publication by newspapers of facts relating to income tax payments, Attorney General Stone announced today that the department of justice "will have an appropriate case presented in the courts" to secure a judicial construction of the law.
The attorney general declined to indicate what procedure would be followed in the test case, or what newspaper, editor, or publisher would be selected as defendant.
In a long statement, Mr. Stone pointed out that the effect of one section of the law was to allow general inspection of income tax returns, while on the contrary side stood a section specifically prohibiting the publication of "any information in newspapers" which was specifically provided for by the law, and he was not at all sure that congress had in mind.

SAD NEWS AWAITS HUNTER BEING SOUGHT IN WOODS

Old Forge, Oct. 28.—State troopers and scores of sportsmen and friends have instituted a search for Thomas Lewis of Endicott, whose whereabouts in the big woods, which he entered Saturday as a member of a hunting party, can not be learned.
The searchers carry a message of death. Lewis' four-year-old daughter, Irene, died yesterday in Endicott hospital from burns suffered when her dress caught fire as she was playing around a bonfire.
The only clue the men have to work on is the fact that Lewis told his family when he left that he was coming to McKeesburg hunting. With him were Ralph Siskler and Ray Cosman, also of Endicott. The two men had never been in this section before, but Lewis had made two or three other trips in this section while hunting.

PLAYERS MAILED CHECKS

Chicago, Oct. 28.—Baseball Commissioner Landis today sent out more than \$41,000 in checks to the players of the clubs which finished in second and third places in the National league pennant race for 1924. The Brooklyn received \$22,311.91 for finishing second. There were 22 full shares of \$992.25 each. The Pittsburgh Pirates, dividing \$10,444.62, had 27 full shares of \$386.81 each. The secretary, but boys, coaches and trainers were taken care of by each club.

COLUMBIA WILL FINISH SEASON UPON GRIDIRON

Mrs. Haughton and Former Associates of Dead Coach Believe This Would Be in Accordance With His Wishes

BURIAL TOMORROW

University Will Hold Services in Chapel at Time of Funeral in Boston—Memorial Mass Meeting Today

(By the Associated Press.)
New York, Oct. 28.—Columbia will close her gridiron ranks and carry on the 1924 football campaign in spite of the stunning and unexpected blow received by the death of Head Coach Percy D. Haughton.
This was decided today by university athletic authorities, who announced that the game at Illinois next Saturday with Cornell, as well as those with New York university, Army, and Syracuse, would be played as scheduled.
At the same time, Dr. Paul C. Withington, former Harvard pupil and first assistant at Columbia to Haughton, was appointed head coach for the rest of the season.
The entire university today was plunged into mourning by the loss of Haughton just as it seemed that the Blue and White, reaching heights it has not known in years by crushing Williams last Saturday, was about to lead Columbia out of the gridiron wilderness.
All Demonstration Plans Dropped.
First indications were that the remainder of the football program would be cancelled but after consulting Mrs. Haughton, associates of the late head coach, and players, it was decided to complete the season. Those closest to Haughton expressed their belief that he would want the game carried on, and the team as a unit voiced its desire to finish the season as their best means of paying tribute to Haughton's achievements.
Although the team, accompanied by a large delegation of students will go to Ithaca Saturday, all demonstration plans in connection with the trip have been abandoned out of respect of Haughton's memory.
The special train chartered for the occasion and a rally planned tomorrow night have been canceled.

WILL BE ELECTED ON RECORD NOT PREJUDICE, SAYS SMITH

New York, Oct. 28.—In the first two speeches of his campaign within Greater New York, Governor Alfred E. Smith tonight discussed the remarks of his Republican opponent, Colonel Theodore Roosevelt, on the housing problem, and taxation, grade crossing elimination, and automobile legislation. He also referred to the Ku Klux Klan issue.
The governor's remarks on the last named subject were made at a meeting of negroes in Harlem, following a speech in a Richmond Hill public school.
"I will never make an appeal to prejudice," the governor said in connection with the Klan. "I don't have to do it. It'll be elected on my record. But as an evidence of the Republican attempt to carry water on both sides, and in answer to the Republican charge of insincerity, I have it with you people here tonight to determine for yourselves whom the Ku Klux Klan will support in this election."
COZY DOLAN WILL SEEK TO RECOVER \$100,000
New York, Oct. 28.—Cozy Dolan, former coach of the New York Giants, banished for alleged complicity in an attempted bribery deal with Jimmy O'Connell, will seek damages of not less than \$100,000 in the suit he plans to bring against Baseball Commissioner Landis, according to W. J. Fallon, Dolan's attorney.
Papers in the suit, which also will name Presidents Johnson and Heydler of the American and National league as defendants, will be filed in federal court here not later than Friday of this week, Fallon says. The action accuses baseball executives, who Dolan accuses of "gross negligence and his share of the world series money."

FRANCE RENOVATES RUSSIA

(By the Associated Press.)
Paris, Oct. 28.—France's foreign policy of the Russian revolution government was today renewed by a brief message addressed to M. Tchitcherine, foreign minister at Moscow.
The French government promises to make public the text tonight, together with the text of the reply, but up to 10 o'clock tonight neither text had been issued, as the Russian answer had not been received, and the government was firm in its resolve to publish the two statements.

It was disclosed here today.

WARNS OF RULE BY WALL STREET

LaFollette Says Morgan and Standard Oil Hold Mortgages on Many Countries

New York, Oct. 28.—Appealing to the voters of New York to support his candidacy for the presidency, Senator Robert M. LaFollette devoted an address tonight in Brooklyn almost entirely to an attack on "Wall Street," which he declares controls the economic and political life of the nation.
"I shall speak tonight of Wall Street," he said at the outset of his prepared speech. "I shall speak of two groups—one, J. P. Morgan, which rules through gold; the other, the Standard Oil company, which rules through oil."
"These two groups are Wall Street. Their will rules industry and finance, it rules banks, great railroad systems, and insurance companies. It rules other monopolies."
"Not content with the control of America, American gold and American oil, they are reaching out for the future control of the world. They hold mortgages on Germany, on France, on Poland, on Czech-Slovakia—on a great portion of Europe. They rule the lives of millions of black folks, yellow folks, and brown folks in far distant continents."

WORLD CONTROL THREATENS

"Gold and oil rule the world today," Europe bows to American gold, but state department is administered by the interests of oil. Unless checked, these two groups and the things they represent will rule the world.
"To accomplish this end, they have gained control of the Republican and Democratic parties. They have dedicated the nomination of both presidential tickets. And having made these nominations, they are now attempting to herd the American people like frightened animals to sanction their acts. They are whispering fear. They are attempting to coerce employees. They talk of business calamity. They are doing everything in their power to make the ballot an empty thing."

TRADE IMPROVES GREATLY IN EAST

Sales 12 Per Cent Greater in 63 Reporting Stores Than for September Last Year

New York, Oct. 28.—Substantial improvement in trade throughout the eastern states was reported today by the federal reserve agent at New York in his monthly review of credit and business conditions.

"September sales of 63 reporting department stores in this district," he stated, "were 12 per cent larger than a year ago, partly because of more selling days than in September, 1923, and partly because of an unusual number of special sales in the month."

Average daily sales for the district were four per cent larger than a year ago, and for Newark and New York city stores were five to seven per cent larger than in 1923. Stores in Buffalo, Syracuse and various other selected cities reported small increases in aggregate sales, over last year, while stores in Bridgeport and Rochester reported decreases."

Wholesale trade, based on the sales of representative dealers, expanded four per cent in September. The chief increases in sales over a year ago were in diamonds, wearing apparel, stationery, drugs and silk goods, with trade in groceries and shoes also exceeding that of 1923.

Sales of reporting chain stores were larger in the case of dry goods, groceries, 10-cent, and candy chain stores, but lower for tobacco, shoe and drug lines.

ROOSEVELT REPEATS CLAIM OF PARTY'S LABOR ACTIONS

New York, Oct. 28.—Carrying his campaign for governor into Brooklyn tonight, Theodore Roosevelt gave a more detailed review of labor legislation in this state, arguing that the Republican party deserved credit for most of the laws for protection of men and women wage earners and hours, and accusing the Democrats of blocking humanitarian measures because they were of Republican origin.
"This is a guarantee of what our action will be under the coming liberal Republican administration," he concluded. "I pledge myself to recommend and sign when passed the liberal provisions of our party platform, and to give most careful and early consideration of any legislation of this type suggested, and where it is in the public and common sense to give it a positive support, whether it is proposed by a Republican or a Democrat."

JACKSON AND FELSCH STILL SEEK SERIES MONEY SHARE

Chicago, Oct. 28.—Baseball Commissioner Landis, while in Milwaukee, today made a speech, which seemed to make with papers in a suit brought by Happy Felsch and Joe Jackson, expelled White Sox players, in an attempt to win to award them a share of the world series money in 1919. It was disclosed here today.

Commissioner Landis was directed to appear in court in Milwaukee on November 3 to make answer.
Jackson and Felsch were among the White Sox players dropped as a result of the world series scandal of 1919.

'SLUSH FUND' NOT KNOWN TO W. L. MELLON

Pennsylvania Phase of Republican Campaign Contributions Delivered Into by Special Senate Committee

WALSH SEEKS SPEED

LaFollette's Attorney Declares He Has "Enough Witnesses From Hostile Sources" to Prove Every Charge

Washington, Oct. 28.—Inquiry into Republican campaign funds was resumed today by the special senate committee with particular attention being given to Pennsylvania. The hearing was conducted by the two Democratic members of the committee, Senators Caraway, Arkansas, and Hagar, Delaware, the other members, Chairman Borah and Senator Shipstead, former Labor, Minnesota, having left for Chicago to hold a separate investigation.

Reports filed with the committee today showed that the Republican national committee had received up to October 20, \$2,529,988 in contributions, or within approximately \$171,000 of the \$2,000,000 total campaign fund fixed by Chairman Butler.

A statement from LaFollette's national campaign manager was also presented to the committee showing that \$47,300 had been raised in contributions of \$100 or more since August 12.

Walsh Asks for Speedy Action.
At the outset of today's hearing, Weymouth Kirkland, counsel for the Republicans, and Frank P. Walsh, attorney for LaFollette, engaged in a heated controversy, during which Kirkland charged that "enormous sums" were being raised on behalf of the LaFollette-Whelan ticket, and Walsh accused him of attempting to block his witnesses' testimony. Kirkland requested that subpoenas be issued for William M. Johnson, president of the International Machinist association; Edward Keating, former member of congress, and Alexander Kahn, a New York publisher.

Walsh insisted that the committee go ahead with the witnesses called in connection with Senator LaFollette's charges of a huge Republican "slush" fund, declaring that he had "enough witnesses drawn from hostile sources to prove every charge Senator LaFollette has made."

Although the hearing today dealt almost entirely with contributions, it was charged by Walsh that the Republicans already had spent \$2,450,000 in the campaign and planned to spend "a great deal more."

From testimony of William L. Mellon, who has charge of raising funds in "Pittsburgh district," it was disclosed that Pennsylvania has contributed \$20,000 to the Republican campaign fund. Of this amount, the witness said, the "Pittsburgh district" contributed \$20,000 and the remainder of the state \$20,000.

Cyrus Curtis Questioned.
Mr. Mellon declared no definite amount had been fixed for his district and that he hoped to raise more funds. He declared that none of the contributions exceeded \$5,000 and that he knew of no "slush" fund being raised in Pennsylvania.

Cyrus H. K. Curtis, president of the Curtis Publishing company of Philadelphia, was questioned closely by Attorney Walsh regarding advertisements placed in newspapers by the company giving publicity to articles attacking Senator LaFollette appearing in the Country Gentleman and the Saturday Evening Post.

The publisher testified that the company had spent \$60,000 in advertising political articles. Of this amount he said \$40,000 was spent advertising an article by Samuel G. Blythe on LaFollette which was printed in the Saturday Evening Post and \$10,000 was spent advertising an article entitled "How Government Ownership Would Affect Railroads," which appeared in the Country Gentleman. He declared that he supported the views expressed in the magazine articles and that he had no objection to the company's advertising his magazine stories had been in practice for 40 years.

The committee then examined in quick succession a number of witnesses, several of whom were dismissed after a few minutes in which not more than half a dozen questions were asked.

VAN SWERINGEN COUNSEL TO SEEK TO WRITE LEASE

New York, Oct. 28.—Counsel for the American interests of Cleveland and the various roads involved in their proposed new Nickel Plate system will meet here tomorrow to revise the lease under which union control and operation of the properties will be effected.

Dissatisfaction with the terms outlined in the first draft of the lease temporarily has blocked progress in the merger negotiations. Several important alterations, designed to safeguard the rights of minority stockholders, still be demanded by representatives of the Erie and Pere Marquette railroads. It is understood.

DRIVE REPORTS SLOW

Salvation Army Urges Workers to Make Some Kind of Report Today

Yesterday's Results Lower.

With but a very small number of workers reporting yesterday on the Salvation Army drive for its budget of \$5,000.00 for the work of the ensuing year, the day was not as satisfactory as was Monday and with the total raised only to about \$1,700, there remains about \$3,300 to be raised these last three days, for the drive, it is hoped, may be concluded on Friday evening. It is felt that the people of Oneonta are desirous of assisting in the Salvation Army work, and that the task is rather to see every resident of the city than to attempt to secure funds from a few.

The number of workers reporting yesterday was particularly small, and it is urged that every canvasser for the drive make a report of some kind to the headquarters of the drive at the Chamber of Commerce offices, phone 226, today before 5 o'clock.

It was quite evident from the reports of yesterday that there is much work still to be done in the campaign, and workers are urged not to leave their small sections of the city until the last day.

QUARTET SINGS TONIGHT

Wholly Unknown Elements Singers From Binghamton Will Appear in High School Auditorium—Have Made Records For Phonograph.

The widely known, prize winning Kiwanis quartet of Binghamton will give a concert in the High school auditorium tonight under the auspices of the Delphain society. Oneonta, lovers of high class vocal music have been promised one of the musical treats of the season. The program which was arranged by Elmer F. Kiwanis, accompanist and manager, is one that contains many high class vocal selections.

The quartet recently made by the quartet for the Columbia Phonograph company together with numerous appearances before Kiwanis conventions and other clubs, has given the singers the reputation of being on a par with the best organizations of a similar nature in the country.

Although the quartet has been organized but a comparatively short time, they have been given many signal honors. They appeared on the roof garden of the McAlpin Hotel in New York with Ernie Golden's orchestra; on the roof garden of the Pennsylvania hotel with Vincent Lopez and his orchestra and also at the King Edward hotel in Toronto, Canada.

The quartet also has broadcasted selections several times during the last few weeks, from the Municipal station in New York City. An unusually complete blending of harmony, together with exceptionally well trained voices of high caliber, has done much in gaining an enviable reputation for the singers.

The members of the quartet all of whom are from Binghamton are: Job Leon Congdon, first tenor; Robert D. Truesdell, second tenor; J. Fenimore Leonard, first bass; Paul S. Sprout, second bass.

MORE THEATRES

Schine Theatrical Company Secures Twenty-Five New Houses in Western New York

NOW CONTROL OVER FIFTY

Schine Company Owning All Three Oneonta Theatres Secures Control—Interested in Associated Theatres Operating Twenty-Five Houses in Western New York. In Georgia, Illinois, Pennsylvania, and Other Cities

—Total in Ohio Now More Than Fifty With Several New Theatres Being Built.

Announcement was made yesterday of the purchase by the Schine Theatrical company, owners of the three houses in Oneonta and of a number of others throughout this vicinity, of a controlling interest in Associated Theatres, Inc., a concern operating twenty-five high class houses in the western part of the state in cities including Geneva, East Rochester and Salamanca. This brings the total number of theatres included in the Schine string to more than 50, with several new buildings in process of completion.

While the actual sum concerned in the deal could not be determined, it was reliably stated that upwards of half a million dollars changed hands in the transaction.

This consolidation will doubtless prove a benefit to all of the theatres concerned, since the two circuits were of the interest and strongest in New York state north of Westchester county and comprise some of the finest theatre properties in the state outside of the largest cities.

The new houses are all in the Buffalo exchange district, and the purchase of the controlling interest in the concern was made from Harold P. Dygert, president, treasurer, and general manager of Associated Theatres, who has been largely instrumental in building the chain to its present proportions.

WOMEN INVITE MEN

Fair Sex Supporters of Demoralized Mass Hope Male Supporters Will Attend Meeting in Municipal Hall Tonight.

Democratic women who are backing the meeting to be held by the Women's auxiliary of the John W. Davis-for-President club of Oneonta, in Municipal hall, tonight, expressed considerable concern yesterday for fear that the men had gained the impression that the rally will be for women exclusively. Mrs. Louise Hamilton Clark, honorary vice chairman, declared last night that a special invitation had been extended to all the men of this locality to attend the meeting and see how the women do things when they get into a political drive.

Mrs. Clark will preside at the meeting and introduce the speakers. She announced last night that she had received a copy of a useful Democratic campaign march direct from headquarters in New York city entitled John W. Davis March to the White House. It was written by Charles K. Harris, noted writer of melodies and whose most noted success was "After the Ball." The march will be played by the Hon. Ton orchestra, which will furnish music for the meeting.

Mrs. Clark declared that she had received reports from a large number of committee women from the various districts in this city and throughout the county and that these reports indicate a large crowd will attend.

Out of town speakers will be, Mrs. Marion Cothran of New York, W. T. Weiden and Everett Williams. A social hour will follow the address.

Voters Are Instructed.

Many men and women voters continue to avail themselves of the opportunity to learn how to use the voting machine which will be used here in the coming election, by receiving instruction at the municipal building. Those in charge of the demonstration declare that it is to the advantage of each voter who is not familiar with the machine, to visit the demonstration in order to properly cast a ballot on election day. Thorough familiarity with the device also will do much to expedite balloting.

Young People to Be Honored.

At the Main Street Baptist church Thursday evening, following the covenant meeting, a church reception will be held. The occasion is in honor of the newly wedded couples, Mr. and Mrs. C. Nathan Pendleton, and Mr. and Mrs. Newton Darling. All members of the church, congregation, and Sunday school are cordially invited to attend.

FEDERATION PLAN URGED

Committee of Fifteen to Consider Possibilities of Cooperative Movement of Organized and Independent Groups.

Problems of the dairy industry were discussed when the Committee of Fifteen met at Hotel Utica, Saturday morning. The results of the meeting being:

1. Adoption of a resolution "urgently requesting each of our groups to do its utmost" to meet the advance in price of class one milk to \$2.07 November 1, as announced by the Dairyman's League Friday.

2. Discussion of the possibilities of a plan, again referred to at the meeting, by John J. Dillon of the Rural New Yorker and "father" of the Committee of Fifteen, looking to a federation of organized and independent milk producers, with a cooperative sales committee to dispose of milk for the metropolitan market, local groups functioning individually in their own territory.

The plan will be the first considered by the special committee of five named last summer.

The resolution offered by Fred E. Mather, Utica, Pa. (Sheffield group), reads:

"Whereas, it is a source of satisfaction to note that some organizations are advancing their price of Class 1 milk to \$2.07 per 100 November 1;

"Resolved, that we most urgently request each of our groups to do its utmost to meet this advance."

The resolution was seconded by the Nonpool group.

Ten of the 12 remaining members of the committee (three Dairyman's League members having resigned) were present. The absentees were Morran B. Garlock, Utica, and H. G. VanAlstyne, Canajoharie, of the Eastern States, that group being represented by the chairman, Rose Sargent, Sandy Creek, who presided. The visitors were Grant Stringer, Madison, and Fred M. Jones, Clinton, both Non-poolers, and C. C. Hooks, Utica, feed dealer. John J. Dillon is an honorary member of the committee.

Deep interest was shown in the federation plan which Mr. Dillon has offered to at previous meetings and which he outlined at great length. Utica Press.

TALKS FROM STATION WGY

Irene B. Taylor, Formerly of This City, Heard in Radio Address Yesterday.

Many of her friends in Oneonta, where she formerly resided, probably heard Irene B. Taylor give a radio address yesterday afternoon from station WGY, Schenectady, her subject being, "Do You Intend to Vote?" Mrs. Taylor is president of the Schenectady W. C. T. U., and attended the convention held in this city recently, where she proved herself to be an able politician and an excellent speaker.

In her discussion of the voting question yesterday Mrs. Taylor said: "Perhaps your vote does look small besides the millions of others, but if all people thought that same way and no one went to the polls, what would become of our nation? The old church motto, slightly altered, could apply to a great many cases."

"What kind of a country would my country be?"

"If all of the voters were slackers like me?"

"Your vote may look small, but then again it may be the deciding factor. Do you intend to vote? We have been hearing the 'Who, Why, Where and What of the whole political situation, but in the end we are coming to our own convictions."

"Now that women have gained the privilege of the ballot it is their duty to use it. In many places this is already being realized as is seen by the fact that one-half of the persons registered are women. From other places the reports are not so encouraging. More and more men are elected by the good women who stay at home on election day than any other way. Let us realize that we are the government, for we have the privilege of making it what we wish by using our vote. Political indifference in government today is immoral. Let us feel more and more our responsibility and let us stabilize our government by standing by our men after we have elected them."

T. D. TALLMADGE HONORED

Mrs. Calvin Coolidge Visits Artist Who Painted Miniature of Her Late Son.

Among the society notes in the Sunday edition of the Washington, D. C. Star appeared the following, which will be of interest to the many friends in Oneonta of Thomas D. Tallmadge, artist with Underwood & Underwood of New York and Washington:

"Mrs. Coolidge made a little pilgrimage yesterday to view a collection of miniatures in the studio of photographers on Connecticut avenue, near the British embassy, because the artist, Mr. Tallmadge, who produced most of them, painted an exquisite little three-quarter miniature on ivory of young Calvin Coolidge, whose death placed the whole nation in mourning. Mrs. Charles Evans Hughes, Mrs. Frederick H. Gillett, Dr. Work, secretary of the interior, and others of the executive and merely official circles viewed the collection, but it was Mrs. Coolidge who was led there by the miniature of her son.

Dr. Work's portrait in the studio is life size and will hang in the Post Office department, his first cabinet being a postmaster general in the Harding administration."

The portrait of Dr. Work's was also painted by Mr. Tallmadge, who is now engaged in painting the daughter of Secretary and Mrs. Charles E. Hughes.

Quite possibly Oneonta acquaintances are not familiar with the fact that Mr. Tallmadge is now recognized as perhaps the foremost painter of miniatures in the country and the volume of work he is receiving from official circles in Washington is a great tribute to his artistic ability. Those Oneontans who have been fortunate enough to see one of his miniatures certainly will accord him foremost position. One Oneonta gentleman has one of these miniatures of his deceased wife and it is a work of art.

HOMES WANTED FOR CHILDREN

The Children's Aid Society of New York wishes to provide homes in the country for the many poor and homeless children who give under its care. The most of these children come from the best orphanages in and about New York and have been diligently trained and selected with care to fit the new family life into which they are to enter. If a mistake has been made in the choice or from any reason the child be not satisfactory, the society bears the trouble and expense of its return.

These children are of both sexes but are chiefly boys and range in age from five to fifteen years.

If you apply for a child you should be prepared to satisfy the society that you will furnish the comforts of a home; that you will treat the little one as a real member of your family by taking the place of father and mother to him as far as possible; that you will give him the education and moral training which will fit him to take a respectable, self-supporting place in the community.

If you have never had a boy about you, you can hardly imagine how interesting he can be and how he can renew your interest in life by relieving you of the many small cares of the farm. Let this society send you a nice, active boy to run errands, hunt the eggs, bring the cows, or possibly send you a sweet little girl to cheer your household in return for the comfort and protection of an approved home.

Kindly send your name and address, telling about your home and desires, and an agent of our society will be pleased to correspond with you.

Hunt's Washington Letter

BY HARRY B. HUNT

WASHINGTON—A fine field for the speakership in the next Congress is assumed, whether Democrats or Republicans win.

For a new gavel wielder must be found to preside over the sessions of the sixty-ninth House Speaker Gillett, after six years in the chair, surrendered the chance at another term in that office to pursue the Massachusetts senatorship now held by David Ignatius Walsh of Fitchburg. Whether he will win it is still in doubt, as Walsh is a popular and persuasive campaigner.

But win or lose for the Senate, Gillett will be out of the speaker's chair after March 4 next, and the line of possible and would-be successors already is beginning to form on the right.

THE scrap for speakership is certain to be complicated by the maneuvers and machinations of independents who will come to the new Congress, for most part, in the guise of Republicans.

Led by Cooper and Frazier and Nelson of Wisconsin, this group of winged G.O.P. members is widely expected to be a factor in the next Congress, and in the present one.

At the first chance to express this power, the first test to reveal the new strength of the G.O.P. will come in the new Congress, and the new Congress will be the one to see the G.O.P. in the white of the day.

HEADING the list of Republican aspirants for this honor comes Nick Longworth of Ohio, the stocky, bald-headed son-in-law of Roosevelt, a tried and true Republican "regular".

Just how he is judged from the fact that he wouldn't even follow his famous father-in-law into the Bull Moose party in 1912. For the past four years he has been the G. O. P. floor leader and is now ready for promotion to the speaker's chair.

Crowding Longworth for favor as G. O. P. choice for speaker is Warren R. Madden of Chicago.

Both are completing their twelfth year in Congress, Madden having served 10 consecutive terms. Longworth 10 terms not consecutive.

GILLETTS withdrawal leaves Henry Allen Cooper of Wisconsin the oldest member of the House in point of service. Cooper is just completing his thirtieth year.

Cooper will be the choice of the Independent Republicans for speaker. In reason of his seniority in service, his personal popularity, his recognized fairness and squareness, his friends believe he will draw the votes of many Republican outsiders of the so-called House progressive group.

Should the progressive vote retain its balance of power as was possible with neither the G.O.P. nor the Democrats, it is possible that Cooper will be elected speaker. It is a possibility that will be tested in the next Congress.

THE first place in the line of power in the new Congress will be the one to see the G.O.P. in the white of the day.

OBSERVANCE AT WORCESTER.

Father Noonan and Father Murphy to Assist in Feast Observance.

Worcester, Oct. 28.—Saturday of

this week will be the Feast of All

Saints, a holy day of obligation. Mass

will be said at St. Joseph's church

Worcester, at 9 o'clock.

o'clock. After this mass the Forty-

Hours Devotion—the exposition of

the Blessed Sacrament—will begin.

Father Noonan and Father Murphy

of Oneonta will assist the pastor

in the devotion.

On Monday morning—the Feast of

All Saints—mass will be said at St.

Joseph's church at 7, 8 and 9 o'clock.

On Tuesday morning, the Forty

Hours will close with mass here at

9 o'clock.

Says Father Reilly: "The Forty

Hours Devotion commemorates the

time between the crucifixion and the

resurrection when the body of Our

Savior lay in the tomb. During this

time the Blessed Sacrament is exposed

for the veneration of the people

and then, even more than at other

times, they should visit Him and offer

for His prayers.

"It is always good to talk our soul

out to a friend, to lay all our joys

and all our sorrows at the door of

his own brave heart—and what brave

heart, truer, more loyal heart than the

heart of Jesus? Other visits we may

make, but no other visits so close, so

warm, so comforting as this. Let us

visit Him, let us compare with the

moment with Him.

"I never crossed your threshold with

a grief.

But that I went without it, never

came.

Heart-hungry but you fed me, eased

the blame.

And gave the sorrow solace and re-

lief."

TO THE VOTERS OF THE CITY OF ONEONTA:

The following is a fac-simile of the face of the voting machine as it will be on the day of General Election, November 4, 1924, in the city of Oneonta:

Diagram and Directions for Voting on the Voting Machine

GENERAL ELECTION, NOVEMBER 4, 1924

Swing the Handle of the Curtain Lever (overhead) from the left over to the right as far as it will go, and leave it there. (This will close the curtain around you, and unlock the machine for voting.)

At the left of the ballot, in (Column 1), you will find the names of all the candidates for President and Vice President, and over each a little Pointer. Turn down the Pointer over the names you wish to vote for from this position to this position.

and leave it down.

Then, in Column 2, turn down a Pointer over the name of the candidate you wish to vote for for Governor, and leave it down.

Continue in the same manner to the end of the ticket, taking care to turn down a Pointer for every office that you wish to vote for, and leave them down.

After you have voted for every office, look at the top of the ballot, and you will see the proposition that is to be voted on. Turn down a Pointer over the YES or the NO of that question, and leave it down.

Leaving the Pointers down in their voting position, swing the Handle of the Curtain Lever (overhead) to the left as far as it will go, and leave it there. (This will register your vote and return the pointers to their first position, after which it will open the curtain.)

A FEW WORDS OF EXPLANATION

No votes are registered until you swing the Curtain Lever to the Left to open the Curtain. You can

therefore make as many changes in your ballot as you wish while the Curtain Lever is at the right (Curtain closed).

Each candidate's voting Pointer is above his name.

The machine is so arranged that you cannot turn down more than the proper number of Pointers for an office. For illustration, only one candidate is to be elected to the office of Member of Assembly, and you can therefore turn down only one Pointer for that office. If two candidates are to be elected to the office of Coroner, you can turn down any two Pointers for that office—but no more.

No votes will be registered for any candidates except those that have Pointers left down over their names. So be sure to leave the Pointers left down over the names you wish to vote for.

There is no danger of anyone's knowing how you vote as the movement of the Curtain Lever returns the voted Pointers to their unvoted position before the curtain begins to open.

Proposition 1

Park System Bond Issue

YES

NO

"Shall Chapter 602 of the laws of 1924, entitled 'An Act making provision for issuing bonds to the amount of not to exceed \$15,000,000 for the extension and improvement of existing State parks and the establishment of new State parks and parkways in order to create a comprehensive and unified State park system for the promotion of the recreation, instruction and health of the people, and providing for a submission of the same to the people to be voted upon at the general election to be held in the year 1924,' be approved."

BEFORE GOING INTO THE MACHINE

1. Examine the Sample Ballot below, and decide what candidates you will vote for, and note where their names are located.
2. Practice on a machine or on one of the little Instruction Models a few times.

AFTER ENTERING THE MACHINE

1. Turn down a Pointer for every office and every question.

Young Stribling in School

Yes, the wonder fighter of Georgia has returned to the classroom in Atlanta, Ga., but his mind is still on the ring, and as he thumbs the dull pages of learning, visions of a triumphant moment lift before his eyes—a moment which will show him standing over the beaten, crushed form of a prize champion. Young Stribling is taking an academic course and intends to enter college. They say he's a fine student.

SOMETHING OF THE PROPERTY TO BE SECURED BY VILLAGE THROUGH CONDEMNATION

Charles E. Nash, of Norwich, a merchant and banker. The first meeting of the commissioners for the purpose of organization and examination of the water works plant will be held in Stamford Wednesday, November 12.

Besides the mains through the village streets, the plant consists of two reservoirs, filter house, etc. Within the past three years the Water company has expended over thirty thousand dollars in making improvements to the plant. The lower or old reservoir was rebuilt and now has a storage capacity of a million gallons of water. A pump house was erected at the lower reservoir and a Rumsey pump with a capacity of three hundred gallons per minute was installed to pump water into the mains or to the upper reservoir.

An electric line was built to the reservoir and an electric motor installed to run the pump. A filter system was installed to screen the water before it enters the pump. At the filter house there are four large filters and all the water enters through sand and fine stone before it is sent through the mains. By an apparatus made for the purpose a certain amount of alum is applied to the water. Each filter is equipped so it is washed out daily.

A large water meter with figures denoting at every hour the number of gallons of water passing through the pipes. An indicator marks in red on a sheet the amount of water used each hour, giving an accurate record of the number of gallons of water supplied by the reservoir. By the records in August, 1924, it was shown that one-fourth more water was being used than in August, 1923.

Gauges show the water pressure at the filter house. Also in the filter house is a Rumsey pump with a capacity of 100 gallons per minute which is used when necessary to increase the supply or pumping water.

Nine Million Persons Daily Ride in City's Elevators

More than 9,000,000 persons daily ride in an estimated, are carried by the elevators in New York City. This number exceeds the number of miles on the street railways, highways, and electric lines, it is said. In many large office buildings traffic is so heavy that it is almost impossible to find adequate service may be rendered.

Kink for Window Washers

When washing windows the window washer has an annoying tendency to run down the handle of the squeegee and into his sleeves or onto the clothing of the client. This trouble is now being met by placing a small rubber disk on the handle about a foot from the end. The disk is made of a soft material and is easily attached to the handle.

As well as a piece of tape. A hole slightly smaller than the thickness of the handle is cut in the center of the disk so that it will fit the handle snugly when taped into place.

Ship Is Sent by Parcel Post for Use in Africa

A building has been reduced to a pile of lumber and it is now possible to construct vessels in such a manner that they may be taken to pieces, the parts shipped, and finally reassembled into a seaworthy craft at the destination. Each part is numbered and marked, and the instructions for assembly are so simple that any one can do it. This is a very important feature in the construction of ships for use in Africa, where the lack of skilled labor is a major problem.

Sparrows Defeat Gnat Attack in War on Bird Pests

Research has shown that sparrows are the most effective natural enemies of gnats. By encouraging the growth of sparrow populations, it is possible to control the gnat population. This is a natural method of pest control that is both effective and economical.

High-Speed Telegraph Takes Thousand Words a Minute

Telegraphic messages at the rate of 1,000 words a minute have been received on a revolving magnetic drum instrument on display at a recent exhibit of the British Imperial College of Science and Technology. The current passing through coils converts a rapidly revolving drum into a magnet for a brief space, tracing a small piece of iron which carries a carbon tube charged with ink. The ink is then carried to a recording drum where the message is printed.

Muffling the Alarm Clock

A new device has been invented to muffle the sound of an alarm clock. It consists of a small chamber into which the alarm clock is placed. The sound waves are absorbed by the material in the chamber, reducing the volume of the sound. This is a useful invention for those who live in close quarters or who want to avoid disturbing others.

Cleaning the Coffee Percolator

A new method of cleaning a coffee percolator has been discovered. It involves the use of a special cleaning solution that is poured into the percolator and allowed to sit for a short time. The solution then breaks down the coffee residue, making it easy to remove. This method is simple and effective, and it helps to keep the percolator in good working order.
